

AIR TEMP PROBE FOR OVEN & BBQ

Operating Instructions

INSTRUMENT OPERATION - This Air Temp Probe is designed for accurate monitoring of oven and BBQ air temperatures. Using the supplied clip, simply attach the probe to an oven rack or shelf. Supplied with a 1.2 metre stainless steel braided lead. Response time less than four seconds. Probe temperature range -50 °C to 300 °C.

FR - UTILISATION DE L'INSTRUMENT - Cette sonde pour four est idéale pour contrôler les températures de l'air ambiant. Attacher simplement la sonde à la grille ou rebord du four en utilisant le clip. Fournie avec un cordon tressé en acier inoxydable de 1,2 mètre. Temps de réponse inférieur à quatre secondes. Plage de température de la sonde de -50 °C à 300 °C.

DE - BEDIENUNG DES INSTRUMENTS - Dieser Ofenfühler ist ideal zur Messung von Umgebungstemperaturen. Mithilfe der Klemme kann der Fühler problemlos an einem Backblech oder Backofenrost befestigt werden. Lieferumfang umfasst eine 1,2 Meter lange Edelstahlgeflecht-Leitung. Reaktionszeit weniger als vier Sekunden. Fühler-Temperaturbereich: -50 °C bis 300 °C.

IT - FUNZIONAMENTO DELLO STRUMENTO - Questa sonda per forni è ideale per monitorare le temperature ambiente. Usando la clip, attaccare la sonda alla graticola del forno. Fornita con cavo intrecciato in acciaio inossidabile da 1,2 metri. Tempo di risposta inferiore a quattro secondi. Gamma di temperatura della sonda: da -50 °C a 300 °C.

PT - FUNCIONAMENTO DO INSTRUMENTO - Esta sonda para fornos é ideal para monitorização da temperatura ambiente. Com o grampo, basta fixar a sonda à prateleira do forno ou outra. Fornecida com uma guia entrançada de aço inoxidável com 1,2 metros. Tempo de resposta inferior a quatro segundos. Gama de temperatura da sonda entre -50 °C e 300 °C.

ES - FUNCIONAMIENTO DEL INSTRUMENTO - Esta sonda para horno es ideal para controlar la temperatura ambiente. Simplemente acople la sonda a una rejilla o estante del horno mediante el clip de sujeción. Viene suministrada con un cable de acero inoxidable trenzado de 1,2 metros. El tiempo de respuesta es inferior a cuatro segundos. El rango de temperatura de la sonda es de -50 °C a 300 °C.

GUARANTEE - This instrument carries a six month guarantee against defects in either components or workmanship. During this period, products that prove to be defective will, at the discretion of ETI, be either repaired or replaced without charge. The product guarantee does not cover damage caused by fair wear and tear, abnormal storage conditions, incorrect use, accidental misuse, abuse, neglect, misapplication or modification. Full details of liability are available within ETI's Terms & Conditions of Sale at etiltld.com. In line with our policy of continuous development, we reserve the right to amend our product specification without prior notice.
